

Thermo Orion Trade in Promotion

Trade-in and save up to 20 %!**

It's simple – here's how the Orion meter trade-in works:

1. Purchase an Orion benchtop meter from the list between January 1 and June 30th, 2019 using the promotional part numbers provided. Your special pricing will be provided by your sales representative.
2. Our technical sales representative will contact you for pick-up of your old benchtop meter.
3. We'll dispose of your old meter using Responsible Recycling practices (R2).

The Versa Star's Multiple Module Format results in the ability to mix and match measurement parameters of pH, ISE, DO or Conductivity !

Record accurate and reliable pH, mV, ORP and temperature measurements with the Thermo Scientific™ Orion™ Star A200 Series Benchtop Meters, they are ideal for a wide range of applications and advanced analysis in the lab. Perform up to a five-point pH calibration, log up to 2000 data point sets with time / date stamp and easily transfer calibration and data logs via USB or RS232 to a printer or computer with free downloadable Orion™ Star Com software. Use the included electrode stand to easily place sensors in samples and simplify storage to minimize breakage.

Take simple, routine pH, mV and temperature measurements with the Thermo Scientific™ Orion™ Star A111 pH Benchtop Meter, an easy-to-use and budget-friendly instrument for basic pH analysis in the lab. Perform up to a three point pH calibration with easy recall of calibration points and slope. Quickly navigate setup menus and ensure consistent calibrations using the simple keypad layout and on-screen text prompts. Use the included electrode stand to easily place sensors in samples and simplify storage to minimize breakage.
