Sample Bottles and Vials for Volatile Organic Analysis

CLASS 1	(Standard) Containers are assembled with liner and closure, without washing treatment
CLASS 2	(Pre-cleaned) Containers are processed according to E.P.A. recommended wash procedures
CLASS 3	(Certified) Containers are processed according to E.P.A. recommended wash procedures.
Each case contains a "Certificate of Analysis".	
An independent laboratory is used to certify the container's cleanliness, assuring impartial results.
