### Solvent Syringes - Luer Lock Chemical Resistant Polypropylene

These syringes are latex free, contain no rubber, no silicone oil, styrene or DEHP and are DNA free. These syringes are the choice for any situation needing an inert, non-reactive syringe. Because of their composition they are indicated for Nuclear Medicine, Amniocentesis, IVF, embryo-transfer, chromatography and many laboratory procedures.

### Diamond Max™ High Speed Centrifuge Tubes 20,000 x g

Diamond Max™ High Speed Centrifuge Tubes are engineered for high speed centrifugation and meet the demands of the most critical scientific work. Premium grade materials and an automated, touch free manufacturing process provide both performance and savings to users. Printed Graduations Features and Benefits:

- Leak Resistant - Easy Grip Caps have an integral seal ring design for secure closures that eliminate seepage when used as recommended
- Eco Friendly - Paperboard racks are readily recyclable in the well-established paper recycling stream
- Certified - Tubes are manufactured in a class 100,000 clean room, gamma irradiated to SAL 10-6, and are certified to be free from DNase, RNase, Human DNA, Pyrogens, and Endotoxins

### LinkLabel™ Bluetooth Enabled Labeler Includes a White Label Cartridge **Get an additional label cartridge free!**

The new LinkLabel™ Lab Printer brings a new level of freedom to laboratory labeling. The free, downloadable LabelPro™ App allows users to endlessly customize and specialize their labels. Use the app to easily change text, font, positioning, size, and label length. The LinkLabel also has the ability to print batches, serial numbers, and a variety of barcodes.

With 12 available label cassettes, the customization doesn't end on your cell phone. Choose from multiple colors of tape, including transparent. Three label heights are available for different sized vessels. 6mm tapes are great for tissue culture plates, 12mm tapes are ideal from microtubes, and the extra tall 24mm tapes are ideal for large tubes and flasks. Special "ultra-low" label tapes are also available for storage in -80°C environments or for liquid nitrogen applications. Choose a free cartridge from the following list.

### nUVaClean™ UV Pipette Carousel LMTCP5590

- UV-C Lamp and reflector system destroys 99% of DNA
- Eliminates cross-contamination
- 360° UV Exposure
- Fits virtually any pipette
- Compact 6.5in. (17cm) footprint
- Made in the USA

**Sale Price \$ 299.00 !**

ProPette nUVaClean™ is the first and only pipette rack that not only organizes and protects six pipettes, but also destroys up to 99% of unwanted contamination. The new nUVaClean™ uses a germicidal UV-C mercury vapor lamp. A high-efficiency reflector/concentrator completely bathes pipette shafts in 254nm UV light. This exposure destroys unwanted microbiological contaminants and prevents cross-contamination in PCR and other sensitive procedures. Just place single-channel pipettes of any range or brand in the nUVaClean™ and press the “start” button to begin the auto-decon cycle. After 28 minutes the nUVaClean will power down automatically, delivering up to 6 pipettes that are safe, clean and ready for use.

### FlowTubes™ for Flow Cytometry Instruments

- Compatible with FACS (BD) instruments
- Available with 35µm strainer cap, standard cap, or no cap
- Clear polystyrene
- 5mL capacity

Made of crystal clear polystyrene, these 12x75mm FlowTubes™ are designed for Fluorescence Activated Cell Sorting/ flow cytometry equipment including FACS systems from BD Biosciences. The diameter and wall thickness of the tube's neck is held to very tight tolerances to ensure consistent compatibility with the automated instrument. They are available with the standard two-position culture cap, no cap at all, or with a cap that contains a 35µm nylon mesh screen, designed to assist in cell sorting/straining applications. These tubes are primarily used to collect dissociated sample for subsequent processing in automated flow cytometry instruments.

LMTCT9005-1S	Flow Cytometry Tubes with .35um strainer cap, Sterile 12x75mm, IW, 500/cs	\$ 350.00
LMTCT9010	Flow Cytometry Tubes with standard cap, sterile, 12x75mm, 25/bag, 500/cs	\$ 60.00
LMTCT9005	Flow Cytometry Tubes with strainer cap, Sterile 12x75mm, 25/bag, 500/cs	\$ 275.38
LMTCT9020	Flow Cytometry Tubes without cap, non-sterile bulk econo-pack, 4000/cs	\$ 183.08
LMTCT9014	Flow Cytometry Tubes without cap, sterile, 12x75mm, 250 per tray box, 1000/cs	\$ 81.54
LMTCT9019	Standard Cap for Flow Cytometry Tubes, 8 bags of 125 caps, 1000/cs	\$ 43.08
